AURO

4810000 Version 2.1		asic washing powder evision date 08-Jul-2021	Print date 08-Jul-2021		
SE	CTION 1: Identification of the	substance/mixture and of the company/undertaking			
1.1	Product identifier				
	Trade name/designation				
	4810000	Basic washing powder			
1.2	2 Relevant identified uses of the substance or mixture and uses advised against				
	Relevant identified uses				
*	Cleaning agent				
1.3	Details of the supplier of the s	afety data sheet			
	Supplier AURO Pflanzenchemie AG Alte Frankfurter Straße 211 38122 Braunschweig Deutschland	Telephone: +49 531 28141-0 Telefax: +49 531 28141-72 E-mail: info@auro.de Website: www.auro.de			
	Department responsible for in				
	E-mail (competent person)	msds@auro.de			
1.4	Emergency telephone number Emergency telephone number Only available during office hour	+44 1544388535			
SECTION 2: Hazards identification					
2.1	Classification of the substance	e or mixture			
	The mixture is classified as haza Eye Dam. 1; Serious eye damag	gulation (EC) No 1272/2008 [CLP] rdous according to regulation (EC) No 1272/2008 [CLP]. e/eye irritation; H318 Causes serious eye damage. tation; H314 Causes severe skin burns and eye damage.			

2.2 Label elements

Labelling according to Regulation (EC) No. 1272/2008 [CLP]

Hazard pictograms

Danger	
Hazard statements	
H314	Causes severe skin burns and eye damage.
Precautionary stateme	ents
P101	If medical advice is needed, have product container or label at hand.
P102	Keep out of reach of children.
P260	Do not breathe vapours.
P280	Wear protective gloves and eye/face protection.
P301 + P330 + P331	IF SWALLOWED: rinse mouth. Do NOT induce vomiting.
P303 + P361 + P353	IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water [or shower].
P305 + P351 + P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P310	Immediately call a POISON CENTER.
P405	Store locked up.
P501	Dispose of contents/container to industrial incineration plant.

4810000 Basic washing powder Revision date 08-Jul-2021 Version 2.1

Hazard components for labelling Natriummetasilikat-Pentahydrat Supplemental hazard information not applicable

2.3 Other hazards

The substances in the mixture do not meet the PBT/vPvB criteria according to REACH, annex XIII.

SECTION 3: Composition / information on ingredients.

3.2 Mixtures

Description

Hazardous ingredients

CAS No. EC No. Index No.	Substance name REACH No. Classification according to Regulation (EC) No 1272/2008 [CLP]	weight-%

Remark

Full text of H- and EUH-statements: see section 16.Full text of H-phrases: see section 16.

SECTION 4: First aid measures

4.1 **Description of first aid measures**

General information

In all cases of doubt, or when symptoms persist, seek medical advice. In case of unconsciousness give nothing by mouth, place in recovery position and seek medical advice.

Following inhalation

Remove casualty to fresh air and keep warm and at rest. In case of irregular breathing or respiratory arrest provide artificial respiration.

Following skin contact

Remove contaminated, saturated clothing immediately. After contact with skin, wash immediately with plenty of water and soap. Do not use solvents or thinners.

After eye contact

Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Seek medical advice immediately.

Following ingestion

If swallowed, rinse mouth with water (only if the person is conscious). Seek medical advice immediately. Keep victim calm. Do NOT induce vomiting.

Self-protection of the first aider

First aider: Pay attention to self-protection!

Most important symptoms and effects, both acute and delayed 4.2

Symptoms

In all cases of doubt, or when symptoms persist, seek medical advice.

4.3 Indication of any immediate medical attention and special treatment needed

First Aid, decontamination, treatment of symptoms.

Version 2.1 Revisio	n date 08-Jul-2021

Print date 08-Jul-2021

SECTION 5: Firefighting measures

5.1 Extinguishing media

Suitable extinguishing media

alcohol resistant foam, Carbon dioxide (CO2), Powder, spray mist, (water)

Unsuitable extinguishing media

Strong water jet

5.2 Special hazards arising from the substance or mixture

Dense black smoke occurs during fire. Inhaling hazardous decomposing products can cause serious health damage.

5.3 Advice for firefighters

Provide a conveniently located respiratory protective device. Cool closed containers that are near the source of the fire. Do not allow water used to extinguish fire to enter drains, ground or waterways.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Ventilate affected area. Do not breathe vapours.

6.2 Environmental precautions

Do not allow to enter into surface water or drains. If the product contaminates lakes, rivers or sewages, inform competent authorities in accordance with local regulations.

6.3 Methods and material for containment and cleaning up

For containment

Take up mechanically, placing in appropriate containers for disposal.

For cleaning up

Clean using cleansing agents. Do not use solvents.

6.4 Reference to other sections

Safe handling: see section 7 Personal protection equipment: refer to section 8 Disposal: see section 13

SECTION 7: Handling and storage

7.1 Precautions for safe handling

Advices on safe handling

Avoid contact with skin, eyes and clothes. Avoid respiration of swarf. Personal protection equipment: see section 8 Do not empty containers with pressure - no pressure vessel! Always keep in containers that correspond to the material of the original container. Follow the legal protection and safety regulations.

Advices on general occupational hygiene

When using do not eat, drink or smoke.

7.2 Conditions for safe storage, including any incompatibilities

Requirements for storage rooms and vessels

Storage in accordance with the Ordinance on Industrial Safety and Health (BetrSiVO). Keep container tightly closed. Do not empty containers with pressure - no pressure vessel! Smoking is forbidden. Access only for authorised persons. Store carefully closed containers upright to prevent any leaks.

Hints on joint storage

Keep away from strongly acidic and alkaline materials as well as oxidizers.

Further information on storage conditions

Keep container tightly closed. Smoking is forbidden. Access only for authorised persons. Store carefully closed containers upright to prevent any leaks.

7.3 Specific end use(s)

Observe technical data sheet.

SECTION 8: Exposure controls/personal protection

8.1 Control parameters

4810000Basic washing powderVersion 2.1Revision date 08-Jul-2021

Occupational exposure limit values

No data available Biological limit values No data available

8.2 Exposure controls

Provide good ventilation. This can be achieved with local or room suction.

Personal protection equipment

Respiratory protection

In case of inadequate ventilation wear respiratory protection.

Hand protection

Suitable material: NBR (Nitrile rubber) Thickness of the glove material >= 0,4 mm Breakthrough time >= 480 min

For special purposes, it is recommended to check the resistance to chemicals of the protective gloves mentioned above together with the supplier of these gloves. Observe the instructions and details for use, storage, maintenance and replacement provided by the protective glove manufacturer. Penetration time of glove material depending on intensity and duration of exposure to skin.

Recommended glove articles:EN ISO 374

Skin protection

Barrier creams can help protecting exposed skin areas. In no case should they be used after contact.

Eye/face protection

Eye glasses with side protection

Body protection

When handling with chemical substances, protective clothing with CE-labels including the four control digits must be worn.

Environmental exposure controls

Do not allow to enter into surface water or drains.

SECTION 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties

Appearance

	••	
*	Physical state	solid
*	Colour	refer to label
	Safety characteristics	
	Odour	characteristic
	Odour threshold	not determined
*	рН	12,1 - 12,4
	Melting point/freezing point	not determined
	Initial boiling point and boiling range	not determined
	Flash point	not determined
	Evaporation rate at 20°C	not determined
	Burning time	not applicable
	Lower explosion limit at 20°C	not determined
	Upper explosion limit at 20°C	not determined
	Vapour pressure at 20°C	not determined
	Density at 20°C	4,74 kg/l
	Water solubility at 20°C	partially soluble
	Partition coefficient: n-octanol/water	see section 12

Explos	sive properties	not relevant	
Oxidis	ing properties	not relevant	
9.2 Other	information		

not applicable

SECTION 10: Stability and reactivity

10.1 Reactivity

No specific test data related to reactivity available for this product or its ingredients.

10.2 Chemical stability

Stable when applying the recommended regulations for storage and handling. Further information on correct storage: refer to section 7.

10.3 Possibility of hazardous reactions

Keep away from strong acids, strong bases and strong oxidizing agents to avoid exothermic reactions.

10.4 Conditions to avoid

Stable when applying the recommended regulations for storage and handling. Further information on correct storage: refer to section 7. Hazardous decomposition byproducts may form with exposure to high temperatures.

10.5 Incompatible materials

No further relevant information available.

10.6 Hazardous decomposition products

Hazardous decomposition byproducts may form with exposure to high temperatures, e.g.: Carbon dioxide (CO2), Carbon monoxide, smoke.

SECTION 11: Toxicological information

11.1 Information on toxicological effects

Acute toxicity

Based on available data, the classification criteria are not met.

Disodium disilicate

LD50: oral (Rat): > 2.000 mg/kg

* LC50: inhalative (Rat): = 10,8 mg/L (4 h)

LD50: oral (Rat): > 2.000 mg/kg

* LC50: inhalative (Rat): = 10,8 mg/L (4 h)

Natriummetasilikat-Pentahydrat

LD50: dermal (Rat): > 5.000 mg/kg

LD50: dermal (Rat): > 5.000 mg/kg

Skin corrosion/irritation

Causes severe skin burns and eye damage.

Serious eye damage/eye irritation

Causes serious eye damage.

Respiratory or skin sensitisation

Based on available data, the classification criteria are not met.

CMR effects (carcinogenicity, mutagenicity and toxicity for reproduction)

Based on available data, the classification criteria are not met.

STOT-single exposure

Based on available data, the classification criteria are not met.

STOT-repeated exposure

Based on available data, the classification criteria are not met.

4810000	Basic washing powder
Version 2.1	Revision date 08-Jul-2021

Print date 08-Jul-2021

Aspiration hazard

Based on available data, the classification criteria are not met.

Practical experience/human evidence

Inhaling of solvent components above the MWC-value can lead to health damage, e.g. irritation of the mucous membrane and respiratory organs, as well as damage to the liver, kidneys and the central nerve system. Indications for this are: Headache, Dizziness, fatigue, amyosthenia, Dizziness, in serious cases: unconsciousness. Solvents may cause some of the aforementioned effects through skin resorption. Repeated or prolonged contact with the preparation may cause removal of natural fat from the skin resulting in non-allergic contact dermatitis and/or absorption through skin. Splashing may cause eye irritation and reversible damage.

SECTION 12: Ecological information

12.1 Toxicity

Based on available data, the classification criteria are not met.

- Acute (short-term) fish toxicity
- * **Disodium disilicate** LC50: (Danio rerio (zebrafish)): >= 500 mg/L (96 h)
- Natriummetasilikat-Pentahydrat
- * LC50: (Danio rerio (zebrafish)): = 210 mg/L (96 h) Method: ISO 7346
- * sodium carbonate LC50: (Lepomis macrochirus (Bluegill)): = 300 mg/L (96 h)

Acute (short-term) toxicity to algae and cyanobacteria

Disodium disilicate
 NOEC (Scenedesmus subspicatus): = 18 mg/L (72 h)
 Method: OECD 201

Disodium disilicate

 * EbC50: (Scenedesmus subspicatus): = 44,1 mg/L (72 h) Method: OECD 201

* Natriummetasilikat-Pentahydrat EC50 (Desmodesmus subspicatus): = 207 mg/L (72 h)

Acute (short-term) toxicity to crustacea

- Disodium disilicate
 EC50 (Daphnia magna (Big water flea)): = 491 mg/L (48 h)
 Method: OECD 202
- * Natriummetasilikat-Pentahydrat EC50 (Daphnia magna (Big water flea)): = 1.700 mg/L (48 h)

12.2 Persistence and degradability

No information available.

- 12.3 Bioaccumulative potential
 - No information available.
- 12.4 Mobility in soil

No information available.

12.5 Results of PBT and vPvB assessment

The substances in the mixture do not meet the PBT/vPvB criteria according to REACH, annex XIII.

12.6 Other adverse effects

No information available.

SECTION 13: Disposal considerations

13.1 Waste treatment methods

Product/Packaging disposal

Do not empty into drains; dispose of this material and its container in a safe way. Waste disposal according to directive 2008/98/EC, covering waste and dangerous waste.

Waste codes/waste designations according to EWC/AVV
